IFTA 2017 MILAN

# 30<sup>th</sup> IFTA ANNUAL CONFERENCE

## SAILING TO THE FUTURE

The Italian Society of Technical Analysis (SIAT) was delighted to be hosting the 2017 International Federation of Technical Analysts' Conference in Milan.

The IFTA 30th Annual Conference was held at the Excelsior Hotel Gallia, an architectural jewel of Belle Epoque, on Friday 13th - Sunday 15th October.

The title of the conference, “Sailing to the future”, allowed us to go beyond the usual thematic of Technical Analysis, exploring the sea of opportunities that has been originated by a totally new “quant” generation of technologies, markets and instruments. We also tried to go inside the vast thematic of the contamination between our discipline and many other fields of economics (i.e. Behavioral Finance, AI, Big Data, Cryptocurrencies, Blockchain), with top institutional and academic contributions.

The Conference was attended by 300 professional, such as advisors, fund buyers, asset managers, private bankers and professional traders, not only from Europe and Italy, but also from the USA and Asian countries. The delegates was be drawn from all IFTA societies from around the world. They had the opportunity of being involved in an exciting line-up of eminent speakers and panel sessions and to see, hear and meet with acknowledged cutting-edge speakers, as well as to network with each other.

## MILAN

Milan is considered the Italian's capital of business, finance, technology, fashion and design, but it has much to offer in art and culture with its glorious monuments and museums. Delegates had the opportunity to explore historical buildings, villas, monuments, modern-architectural constructions, churches and abbeys. The city is the second largest one in Italy, as well as financially the most important, and it is home to over 3 million people.

## EXCELSIOR HOTEL GALLIA

Excelsior Hotel Gallia is the entrance gate to Milan, where fashion, design and cuisine come together to make a city renowned for its creativity. From rooftop fine dining to all-day cuisine in Gallia Lounge & Bar, to the mixology bar on the seventh floor's rooftop terrace, Excelsior Hotel Gallia beguiles the palate with its multiple dining choices.

## THE VENUE

Excelsior Hotel Gallia features a collection of function spaces that are ideally suited to continue to host high society's most prestigious social events as well as some of the world's leading meetings and congresses. The IFTA Conference was held on the Duomo ballroom, one of the most well designed and largest column less ballrooms in Milan with 400 square meters of meeting space and natural daylight.

ITALIAN SOCIETY OF TECHNICAL ANALYSIS

SIAT

### What is SIAT?

SIAT - Italian Society of Technical Analysis, is the Italian association for technical analysts. Founded in 1986, SIAT replicates from the Italian perspective the guiding principles of IFTA - International Federation of Technical Analysts, the international non-profit organization, founded in 1986, with member societies in 24 countries.

---

It is a non-profit organization with a membership consisting of institutional traders, fund managers and analysts at asset management companies, financial advisors, individual investors and traders, research analysts and independent research houses, bankers, stock brokers, hedge fund marketers, as well as growing numbers of academics.
